

## Print Journals in Earth Sciences Subject List

This list includes print journal titles in Earth Sciences and related subjects which are available in the University of Melbourne Library. The list is organised by subject. Library of Congress Subject Headings were used to classified journal titles.

Unless specified otherwise, these titles are held in the Earth Sciences Library in the journal collection. The journal's location is listed as Earth Sci P.

If you cannot find your journal title here, check the Library catalogue by title (<http://cat.lib.unimelb.edu.au/> ) or ask at the Information Desk. (Ph: 8344 6528, email: [info-library@unimelb.edu.au](mailto:info-library@unimelb.edu.au) )

Electronic journals are not included in this list. From 1999 onwards the Library has transferred many of its print subscriptions to electronic only access. Many print journals that have holdings that cease after 1999 or 2000 have been continued electronically. To see if a journal is available electronically search the library catalogue via title or ask library staff for assistance.

Electronic journals are also accessible from the Earth Sciences Electronic Journals webpage. This includes an A-Z list (<http://www.lib.unimelb.edu.au/collections/earth/ejrnlaz.html>) and a list of Selected E-journals by Subject : (<http://www.lib.unimelb.edu.au/collections/earth/ejrnsub.html> )

To locate journal articles on a particular topic or subject, use a journal index. A list of some of the key journal indexes for Earth Sciences is available at: <http://dozer.infodiv.unimelb.edu.au/SuRe/subject.php?subject=Earth+Sciences&field=keyres>

Use the database JAKE at <http://jake.med.yale.edu> to:-

- determine which research database indexes a particular journal
- determine which research database contains full text of a particular journal
- expand journal abbreviations
- compare journal lists of different databases

---

Journals are listed by Library of Congress Subject Headings and according to the following subject headings:

Antarctica.....	3
Atmospheric Sciences .....	5
Climatology.....	7
Earth Sciences .....	8
Geochemistry .....	15
Geology.....	17
Geophysics.....	42
Hydrology.....	48
Meteorology .....	51
Mineralogy.....	56

Earth Sci  
P

Oceanography.....	66
Palaeontology .....	69
Petrology and Petroleum Geology.....	77
Science - General.....	81
Seismology & Volcanology.....	84

## Antarctica
